

ST STEPHEN'S SCHOOL

Website & School Management System

REQUIREMENTS & DATA COLLECTION DOCUMENT

Please complete and return — your answers configure the system

Prepared for	St Stephen's School — Office of the Principal
Prepared by	Peter Misiati
Document version	1.0
Date issued	___ / ___ / 2026
Please return by	___ / ___ / 2026
Return to	Email: _____ Phone: _____

How to use this document

This document has one purpose: to gather everything needed to build your website and your school management system, so that when the system is delivered it already contains your classes, your subjects, your fee structure and your staff — not placeholder data you have to correct afterwards.

It is written as a set of questions. Where you see an empty box, write in it. Where you see a table, add as many rows as you need.

Who should answer what

Part	Section	Best answered by
A	Website content, branding, public information	Principal / Director / Marketing
B1-B3	Academic structure, subjects, pathways	Director of Studies / Deputy Academics
B4-B5	Learners and guardians	Registrar / Class teachers
B6	Staff, payroll, leave	HR / Bursar / Principal
B7	Fees, vote heads, finance	Bursar / Accountant

B8-B9	Transport and boarding	Transport officer / Boarding master or matron
B10-B13	Attendance, assessment, library, stores	Deputy Principal / Heads of department
B14-B18	Communication, users, portals, migration	Principal / ICT focal person
C	Infrastructure, hosting, training, timeline	Principal / ICT focal person

Three things that will speed this up

- Attach your current fee structure document, class lists and staff list rather than retyping them. Photographs of printed sheets are fine — legibility matters more than format.
- If you cannot answer something, write "not sure" rather than guessing. A wrong answer costs more to undo than a blank one.
- Anything marked REQUIRED TO START must be answered before build begins. The rest can follow during the build.

Nothing in this document commits you to a price or a date. It defines scope so that the quotation and timeline that follow are accurate rather than optimistic.

PART A — The Website

The public website is what parents see before they ever visit. It carries your identity, your admissions information, and the link into the parent portal.

A1. School identity

REQUIRED TO START.

Full registered name of the school	
Short name / how it is commonly known	
School motto	
Year founded	
Ministry of Education registration number	
TSC / county code (if applicable)	
Sponsor or church affiliation (if any)	
Is the school day, boarding, or both?	
Is the school boys, girls, or mixed?	

A1.1 Vision, mission and values

Vision statement	
Mission statement	
Core values (list)	
Short history / about the school (one or two paragraphs)	
Principal's welcome message	

A1.2 Logo and colours

Do you need this?	Yes	No	Not sure
Do you have the school logo as a digital file (PNG, SVG or AI)?			
Do you have the logo only on printed material (we would redraw it)?			

Do you have official school colours we must use?			
Do you have a school crest or badge with a meaning we should explain on the site?			

School colours (names or codes)	
Who holds the original logo file?	

If the logo exists only on a letterhead or signboard, send a clear photograph. Redrawing it cleanly is part of the work and costs nothing extra, but it needs a legible original.

A2. Contact and location

Postal address	
Physical location (village, ward, sub-county, county)	
Directions / nearest landmark	
GPS coordinates or Google Maps link	
Main telephone number(s)	
WhatsApp number for enquiries	
Official school email address	
Admissions / enquiries email	
Office opening hours	

A3. Leadership and staff to feature publicly

Names and photographs of people the school wants shown on the site. Only include those who have agreed.

Name	Position	Short bio (1-2 lines)	Photo available?

A4. Academic profile (public-facing)

Levels offered (confirm: ECD, Primary, Junior, Senior)	
Senior school pathways offered (see Part B3)	
Total current enrolment (approximate)	
Number of teaching staff	
Recent national assessment results to publish (if any)	
Notable academic achievements	
Notable co-curricular achievements	

A5. Admissions information to publish

Entry requirements per level	
When is the intake / admission period?	
Documents a parent must bring	
Do you want fees published on the website?	
Do you want an online application form on the website?	
Who receives online applications?	

A6. Facilities and co-curricular activities

Tick what the school has, and which you want featured with photographs.

Facility / activity	Have it?	Feature on site?	Notes
----------------------------	-----------------	-------------------------	--------------

Common entries: classrooms, science laboratory, computer lab, library, dining hall, dormitories, playing field, chapel, sick bay, school bus, water supply, football, netball, athletics, music, drama, scouts, clubs.

A7. News, events and gallery

Do you need this?	Yes	No	Not sure
Do you want a news / announcements section you can update?			
Do you want an events calendar visible to parents?			
Do you want a photo gallery?			
Do you have existing photographs we can use?			
Will you need us to photograph the school?			

Who at the school will post news after handover?	
---	--

A8. Online presence

Facebook page	
X / Twitter	
Instagram	

YouTube / TikTok	
Existing website address (if any)	
Who controls the existing website and domain?	

A9. Domain name and email

Preferred website address (e.g. ststephens.ac.ke)	
Do you already own a domain? Which?	
Who is the registrar, and who has the login?	
Do you want school email addresses (e.g. principal@yourdomain)?	
How many email accounts would you need?	

A .ac.ke domain requires proof of registration as an educational institution. A .sc.ke or .co.ke can be registered faster if the paperwork is not immediately available.

A10. Website features

Do you need this?	Yes	No	Not sure
Parent portal login link from the website			
Online admission application form			
Contact / enquiry form that reaches the office			
Complaints or suggestion form			
Downloadable documents (fee structure, forms, newsletters)			
Staff recruitment / vacancies page			
Alumni page			
Board of Management page			
Newsletter sign-up			
Live fee balance check for parents			

Multi-language (English and Kiswahili)			
--	--	--	--

PART B — The School Management System

This part configures the system itself. The more precisely it is answered, the less correcting you will do after go-live.

B1. Academic structure

REQUIRED TO START.

List every class the school runs. Add a row per stream — if Grade 4 has two streams, that is two rows.

Level	Class name	Stream(s)	Learners	Class teacher
ECD	Playgroup	A		
ECD	PP1	A		
ECD	PP2	A		
Primary	Grade 1			
Junior	Grade 7			
Senior	Grade 10			

The rows above are examples showing the format — overwrite them. We expect roughly ECD (Playgroup, PP1, PP2), Primary (Grade 1–6), Junior (Grade 7–9) and Senior (Grade 10–12). Correct anything that does not match.

Do you use names for streams (A/B, or North/South, or colours)?	
Maximum learners per class	
Do classes have a house system (e.g. for sports)?	

B2. Academic calendar

REQUIRED TO START.

How do you name the academic year (e.g. 2026 or 2026-2027)?	
Current academic year	

Term	Opening date	Closing date	Mid-term break

B3. Subjects and learning areas

REQUIRED TO START.

B3.1 ECD, Primary and Junior

List the learning areas taught at each level. If you follow the standard KICD list exactly, write "standard" and we will load it for your confirmation.

Level	Learning area / subject	Taught in which classes?	Examined?

B3.2 Senior School (Grade 10-12) — pathways

Senior school is where this system must differ most from a primary school: learners choose a pathway and a subject combination rather than all taking the same list. Tell us exactly what you offer.

Do you need this?	Yes	No	Not sure
STEM pathway			
Social Sciences pathway			
Arts and Sports Science pathway			

For each pathway you offer, list the tracks and the subjects available:

Pathway	Track	Subjects offered in this track	Max learners

B3.3 How learners choose

How many subjects does a senior learner take in total?	
Which subjects are compulsory for everyone?	
How many optional subjects do they choose?	
When do they choose (which term of which grade)?	
Who approves a learner's subject combination?	
Can a learner change combination later? Under what conditions?	

This is the single most important section for the senior school. It determines whether the system can produce a correct report card, timetable and class register for Grade 10–12, because two learners in the same class may sit different subjects.

B4. Learners

REQUIRED TO START (the counts, at least).

Total learners currently enrolled	
Admission number format (e.g. SS/2026/001)	
Does numbering restart each year?	
Do you record the UPI / NEMIS number?	
Do you record the assessment number?	
Do you keep learner photographs?	

B4.1 Information held about each learner

Tick everything the school records. Anything ticked becomes a field in the system.

Do you need this?	Yes	No	Not sure
Full name, date of birth, gender			
Birth certificate number			
UPI / NEMIS number			
Home address and village			
Religion			
Medical conditions and allergies			
Special educational needs			
Previous school			
Day or boarder			
Transport route used			
Photograph			
Nearest hospital / NHIF or SHIF details			

B5. Parents and guardians

Do you need this?	Yes	No	Not sure
Do you record more than one guardian per learner?			
Do you record the guardian's occupation?			
Do you record which guardian pays the fees?			
Do you record an emergency contact separate from the guardian?			
Do parents need their own login to see results and fee balances?			

B6. Staff and human resources

Total teaching staff	
Total non-teaching staff	
Do you record TSC numbers?	
Departments used (e.g. Sciences, Languages, Administration)	

B6.1 Payroll

Do you need this?	Yes	No	Not sure
Do you want payroll in the system?			
Do you pay a basic salary plus allowances?			
Do you deduct NSSF?			
Do you deduct SHIF?			
Do you deduct PAYE?			
Do you deduct a housing levy?			
Do staff take salary advances or loans to be recovered?			
Do you issue printed payslips?			

B6.2 Leave

Leave type	Days per year	Who approves?

B7. Fees and finance

REQUIRED TO START.

Fees are collected against vote heads — the categories a payment is split into. List every vote head you bill.

Vote head	Applies to	Per term or per year?	Amount (KES)
Tuition	All learners	Per term	
Transport	Bus users only	Per term	

B7.1 Fee amounts by class

Attach your current fee structure document if you have one — that is faster than filling this in.

Class	Term 1	Term 2	Term 3	Boarder extra

B7.2 Payments and balances

Payment methods accepted (cash, bank, M-PESA, cheque)	
Bank name and account number for fees	
M-PESA Paybill / Till number	
Do you want M-PESA payments to reconcile automatically?	
Do you issue numbered receipts? What format?	
Do learners carry balances forward between terms?	
Do you offer discounts or bursaries? On what basis?	
Do staff children pay reduced fees?	
Is there a penalty for late payment?	

Automatic M-PESA reconciliation requires a Paybill and Safaricom Daraja API credentials in the school's name. Without them, M-PESA payments are still recorded — they are simply keyed in by the bursar rather than appearing on their own.

B7.3 Income and expenses

Categories the school uses in its books, beyond fees.

Category	Income or expense?	Notes

B8. Transport

Confirmed as required.

B8.1 Routes and charges

Route name	Area covered	Stages / pickup points	Fee per term (KES)	Learners

B8.2 Vehicles and drivers

Vehicle / registration	Capacity	Route assigned	Driver name	Driver phone

--	--	--	--	--

B8.3 How transport is charged and run

Is the transport fee the same for every route, or by distance?	
Can a learner use transport one way only (morning or evening)?	
Is transport billed per term or per month?	
Who is responsible for the daily bus register?	
Do you want the system to bill transport automatically when a learner is assigned a route?	

Do you need this?	Yes	No	Not sure
Do you want parents notified by SMS when the bus departs school?			
Do you want parents notified when the bus reaches their stage?			
Do you want a boarding register (who got on the bus) per trip?			
Do you want to track vehicle servicing, insurance and inspection dates?			

SMS notifications require an SMS account in the school's name (Africa's Talking or similar) and are charged per message. We will quote this separately once volumes are known.

B9. Boarding

Do you need this?	Yes	No	Not sure
Does the school board learners?			
Do you want the system to manage dormitory and bed allocation?			
Do you run a house system?			

Dormitory / house	For boys or girls?	Capacity	Matron / master in charge

B10. Attendance

Who marks learner attendance?	
Is it marked once a day, or per lesson?	
At what time is the register taken?	
Do you mark staff attendance too?	
Do you want parents notified when a learner is absent?	

B11. Assessment and reporting

REQUIRED TO START.

B11.1 Examinations per term

Assessment name	Which term	Out of how many marks?	Counts toward final?

B11.2 Grading

CBC uses performance levels. Confirm the boundaries your school uses, or correct them.

Performance level	Code	Mark range
Exceeding Expectation	EE	80 – 100
Meeting Expectation	ME	60 – 79
Approaching Expectation	AE	40 – 59
Below Expectation	BE	0 – 39

Does senior school (Grade 10-12) use a different grading scale?	
If yes, describe it	
Do you rank learners within a class?	
Do you rank learners across the whole level?	
Do you show the class average on report cards?	

B11.3 Report cards

Do you need this?	Yes	No	Not sure
Class teacher's remarks on each report			
Principal's remarks on each report			
Attendance summary on the report			
Fee balance shown on the report			
Previous term's marks shown for comparison			
Strand or sub-strand level detail (CBC rubrics)			
Space for a parent's signature			
School stamp or signature image			

Attach a copy of your current report card. Matching what parents already recognise is usually better than introducing a new layout.

B12. Library

Do you need this?	Yes	No	Not sure
Do you want a library module?			
Do you lend books to learners?			
Do you lend to staff?			
Do you charge fines for late return?			

Do books have barcodes or accession numbers already?			
Approximately how many titles?			
Who runs the library?			

B13. Stores and inventory

Do you need this?	Yes	No	Not sure
Do you want a stores / inventory module?			
Do you track textbooks issued to learners?			
Do you track uniforms sold?			
Do you track laboratory equipment?			
Do you record suppliers and purchase orders?			

B14. Health records

Do you need this?	Yes	No	Not sure
Do you run a sick bay or clinic?			
Do you want to record clinic visits and treatment?			
Do you record immunisation records?			
Do you notify parents when a learner is treated?			

B15. Communication

Do you currently send SMS to parents? Through whom?	
Do you have an SMS sender ID registered?	
Roughly how many SMS per term?	
Do you send email to parents?	

Tick what you want the system to send:

Do you need this?	Yes	No	Not sure
Fee balance reminders to defaulters			

Receipt confirmation when a payment is recorded			
Absence notification to parents			
Examination results released			
General announcements to all parents			
Announcements to one class only			
Login credentials to new parents			
Bus departure and arrival alerts			

B16. Users and access

Who gets a login, and what should each be able to see? Tick the roles you need.

Role	How many people?	What they must be able to do	What they must NOT see

Common roles: Principal, Deputy, Director of Studies, Bursar/Accountant, Registrar, Class teacher, Subject teacher, Librarian, Transport officer, Boarding matron, Parent, Learner.

B17. Parent and learner portals

Do you need this?	Yes	No	Not sure
Parents can see their child's fee balance and statement			
Parents can see examination results and report cards			
Parents can see attendance			
Parents can see homework or assignments			

Parents can apply for the learner's absence or leave			
Learners get their own login			
Learners can see their own results			
Learners can submit homework online			

B18. Existing records and migration

REQUIRED TO START.

What system do you use now (name, or "paper and Excel")?	
Can data be exported from it? In what format?	
Who administers it, and do you have the login?	
Are learner records in Excel already?	
Are fee balances in Excel already?	
Are staff records in Excel already?	
How many past years of records must be carried over?	
When would you want to switch over?	

Opening fee balances matter more than anything else here. If a learner owes money from last term and the new system does not know, the school loses that money quietly. We import opening balances as a deliberate step and reconcile them against your records before go-live.

PART C — Infrastructure, delivery and sign-off

C1. What the school already has

Internet connection at the school (provider and speed)	
Is the internet reliable during working hours?	
Number of computers in the office	
Do teachers have computers or smartphones?	
Do you have a printer? Laser or inkjet?	
Do you have a receipt printer?	
Is there mains power reliability? Do you have backup?	

The system works on a phone browser, so teachers do not need laptops. But whoever handles fees needs a computer and a printer for receipts.

C2. Hosting

The system needs a server. Three options, to be decided with you:

Option	What it means	Roughly
Own server	A private server used only by St Stephen's. Fully isolated — no other school's data on the same machine. Recommended.	Monthly fee
Shared server	The school's system runs on a server shared with another school, in a separate database.	Lower monthly fee
School's own hardware	A machine at the school. No monthly hosting fee, but it depends on school power and internet, and backups become the school's responsibility.	One-off cost

Which option does the school prefer?	
Who pays the hosting cost, and how often?	

C3. Data protection

The system will hold children's personal data, which is regulated in Kenya under the Data Protection Act, 2019.

Do you need this?	Yes	No	Not sure
Is the school registered with the Office of the Data Protection Commissioner (ODPC)?			
Do you have a data protection policy?			
Do you obtain parental consent to hold learner data?			
Do you obtain consent before publishing learner photographs?			
Has a member of staff been named as the data contact?			

Named data protection contact	
--------------------------------------	--

If the school is not registered with the ODPC, we will flag it. Registration is inexpensive and is the school's obligation, not ours, but a system holding learner records makes it harder to ignore.

C4. Training and handover

How many staff need training?	
Can they be trained together, or in shifts?	
Preferred training dates	
Who will be the school's internal system administrator?	
Do you want printed user guides?	

C5. Support after go-live

Do you need this?	Yes	No	Not sure
Do you want a support agreement after handover?			
Do you expect changes and new features over time?			
Do you want us to hold and manage the backups?			

C6. Priorities

If everything cannot be delivered at once, what must work first? Number these 1 (most urgent) to 8.

Priority (1-8)	Area
	Fees, receipts and balances

	Learner records and admission
	Examinations and report cards
	Attendance
	Transport
	Staff, payroll and leave
	Parent portal and SMS
	The public website

C7. Anything else

What does your current way of working do badly that this system must fix? What must it not break?

--

C8. Confirmation

By signing, the school confirms the information given is accurate to the best of its knowledge and may be used to configure the system.

Name	Position	Signature and date

Appendix — What to attach

Send these with the completed document. Photographs of printed pages are acceptable.

#	Document	Why it is needed	Attached?
1	Current fee structure	Loads vote heads and amounts without retyping	
2	Class lists with learner names	Bulk import of the learner roll	
3	Outstanding fee balances per learner	Opening balances, so arrears carry over correctly	
4	Staff list with roles and phone numbers	Creates staff records and logins	
5	A sample report card	Matches the format parents already know	
6	A sample fee receipt	Matches your receipt numbering and layout	
7	School logo (digital or photograph)	Website and all printed documents	
8	Photographs of the school	Website gallery	
9	Transport routes and charges	Sets up the transport module	
10	Timetable (if one exists)	Class and teacher timetables	

A note on learner data

Class lists and fee balances contain personal information about children. Please send them by an agreed private channel rather than a public group, and tell us if any learner's information must be treated as confidential. Once the system is live, this data lives on the school's own server and is not shared with anyone.
